YESTERDAY'S DISPATCHES.

England Annexes an Important Island.

A Son of Robert Laird Collier Shot and Instantly Killed.

Greenland Can be Crossed from East to West on the Way Northwards.

FRANCE.

PARIS, Nov. 23.—The municipal council is considering the scheme to convert the Seine into a canal, in order to make Paris a sea port. The work will cost two million dollars.

Le Petit Journal dwells strongly on the status of an alliance between Russia and France. Against such an alliance, says the Journal, England would be impotent and Germany afraid.

ENGLAND.

LONDON, Nov. 23.—The British resident at Aden, in behalf of the Bombay government, has annexed the important island of Socotra, in the Indian ocean and hoisted the British flag

Princess Beatrice, wife of Prince Henry of Battenberg, and youngest daughter of Queen Victoria, has given birth to a son. The mother and son are doing well. Lord Randolph Churchill was the only minister in attendance at the accouchement.

RUSSIA.

ST. PETERSBURG, Nov. 23.—The Novoe Vremya, commenting upon the rumors that war between Germany and Russia is impending, says if there is one thing upon which Russia will rejoice to exhaust her last blood it is to uphold her independence against the Germans.

CANADA.

HALIFAX, Nov. 23.—Lieut. Piercy, who has been on an expedition to Greenland for the purpose of satisfying himself as to the feasibility of travelling across that country, and thus opening a new route for Arctic explorers, arrived here yesterday on his way home in the United States. Landing at the Danish settlement on the west coast of Greenland he journeyed eastward for a hundred miles over unbroken fields of snow. He returned to the starting point. This was his principal journey, and he was accompanied by Danish officials. He made several short journeys alone. His observation and experience satisfied him that Greenland could be crossed from west to east by future expeditions to the North Pole. On his one hundred mile trip Piercy and his companions had to travel on snow-shoes and sleds, carrying their provisions themselves, the snow being too soft for dogs. They experienced no hardships and returned to the coast in good condition.

UNITED STATES.

NEW YORK, Nov. 23.—H M Hoxie, general manager of the Gould Southwestern system, died this morning at the Broadway.

BOSTON, Nov. 23.—This morning A. M Reed, treasurer of the South Boston Horse Railway Company, was arrested, charged with embezzling $100,000 in cash and $600,000 in over issue of stock of the company. It is charged that the embezzlement has been going on for the past five or six years. Reed has been treasurer of the company for ten years, and always had been trusted with all the funds. He was arrested at his home in South Boston. He refused to-day to say anything in regard to the accusation against him. Reed, in addition to his treasurership of the railway company has been for some time engaged as a broker, at 53 Devonshire street. The surplus of the railway company on September 30th was stated at $76,000.

EMPORIA, Kansas, Nov. 23.—L. D. Collier, son of Rev. Robert Laird Collier, the famous Unitarian minister of Kansas City, formerly of Chicago, was shot and instantly killed last night, by J. H. Harborough, whom he had employed to fill his place as material agent of the Santa Fé road, during his temporary absence. The men had exchanged blows a short time ago, and were separated. Harborough followed Collier to the residence of S. V. Dunden, where the latter had gone, and calling him to the door shot him with a revolver.

CLEVELAND, O., Nov. 23.—This morning Judge Hutchins bound the old man Wheeler over to the Common Pleas Court, without bail, for the murder of his wife. Wheeler is 81 years old and his wife was 87. They had lived here for half a century and each was worth $200,000. Mrs. Wheeler was strangled to death on the night of the 12th inst., and Wheeler claims that two robbers were the murderers.

ST. JOHN'S, N. F., Nov. 22.—The steamer Barrowmore, Captain Honeyman, has just arrived here. She left Baltimore on the 15th instant, cotton laden for Liverpool. The cargo took fire on Friday last and the captain thinks it will be totally destroyed; but believes that the hull of the ship is not materially damaged. Steam has been turned into the main hold for the past 48 hours, but no steps have yet been taken to arrest the fire as the captain is apprehensive of danger in taking off the hatches, an explosion or conflagration being his greatest fear. The Barrowmore is of the Johnson line of Liverpool steamers and has a capacity of 4,000 tons, besides her under-deck cargo. There are also 300 head of cattle on board.

A CAPTAIN'S CRUELTY.

Alleged Inhuman Treatment of a Sailor at Sea--Death of the Victim.

HALIFAX, Nov. 10.—Martin Grintman, a carpenter belonging to the barque Ivy, of Quebec, and Richard Riddle, a seaman, charged the captain, Wm. Glen, with having caused the death of one of his crew named James Pierce, while the vessel was at Sourabaya, Java. The barque arrived at Halifax from Java with a cargo of sugar, and since then the mate, Alexander Gordon, and Riddle have been in jail, each on a charge of assault preferred by the other, while Grintman has had to sue Captain Glen for a portion of his wages. Grintman says that Pierce was confined in irons for 75 days, at the end of which he died, and the irons remained on his wrists up to his dying moment. The punishment was inflicted because the man, who was shipped at New York in a hurry to fill another seaman's place, wanted to have his papers made out properly before the British consul at Sourabaya. Captain Glen refused. Pierce said he did not want to deal fairly with him respecting his wages. The first three days after being put in irons Pierce was tied on deck and at night was beaten by the captain in a heartless manner, a heavy belaying pin and a loaded whip being used as the weapons of punishment, and blood from the man's wounds streamed down his face and dripped on to the deck. After that he was confined in a foul-smelling place, filled with oil and paint, and so small that he had not room to lie down. Here he was kept confined until the night before he died, being fed on half a pound of bread with water daily. The evening before he succumbed one of the crew managed to unlock his prison door, and that night he slept on deck. In the morning he complained of illness, and a couple of hours later expired. The matter has been referred to the Minister of Marine, whose instructions are awaited before action is taken. Meantime the captain is at large. Both he and the mate deny the story of inhumanity toward Pierce.

GOSSIP ABOUT THE QUEEN.

Visiting John Brown's Grave--An Old Superstition.

LONDON, Nov. 10.—The Queen visited the church yard at Crathie, shortly before her departure from Balmoral, and deposited a memorial wreath on the grave of John Brown.

Queen Victoria, during her stay at Holyrood, visited the tomb of the Earl of Daikeith, the Duchess of Buccluch accompanying Her Majesty. In court circles the Queen's course in sleeping at Holyrood on this trip, instead of coming direct to Windsor, is attributed to her Majesty's belief in the old superstition that a crowned head who rests only one night in the year at Holyrood will never see the end of the year. The Queen has approved the proposed second marriage of the Duchess of Albany, Prince Leopold's widow, who was Princess Helen, daughter of Prince Waldeck, to the Russian Prince Fanir, who was a lover of Princess Helen and a suitor for her hand before the Duke of Albany wooed and won her.

Daily Colonist

WEDNESDAY MORNING, NOV. 24TH, 1886.

L. P. FISHER, Advertising Agent, 21 Merchants Exchange, San Francisco, is authorised to receive advertisements for the columns of this paper.

$20 REWARD

WILL BE PAID FOR THE ARREST AND conviction of any person who may steal *The Colonist* from the door of a subscriber.

TO ADVERTISERS.

THE COLONIST has a guaranteed circulation far in excess of any other paper published in British Columbia. It is recognized as the leading newspaper, and its superior value as an advertising medium is unquestioned and is attested by the generous patronage bestowed upon it. The fact that it has double the number of readers of any other paper published in Victoria furnishes advertisers with the means of reaching the eyes of the greater portion of the population. Merchants and manufacturers intending to advertise should bear this in mind, for in no other way can they so completely cover the ground.

LIBERAL DISINTEGRATION.

In spite of warm protests on the part of the Gladstonian press, the process of dissolution goes steadily forward throughout the liberal ranks. The representatives of the National Liberal Association of Scotland, have decided by a majority that no man can claim the title of liberal who does not support Mr. Gladstone's home rule scheme. By the more bigoted members of the "great" party this decision has doubtless been received with a sense of self-confident satisfaction. But there are many Scotch electors, even amongst the liberals, who fail to see how belief or disbelief in Mr. Gladstone's separatist proposals can make or unmake a liberal. Still, the Scotch are a persistent people, and the decision of the National Liberal Association of Scotland will unquestionably be adhered to. Lord Randolph Churchill's political influence is fast increasing: the Chancellor of the Exchequer has put himself into tune with the times: and without sacrificing one jot of ge. conservative principles, he moves forward with an evergrowing following, whilst the Gladstonites and their supporters stick fast in the quagmire of Gladstone-Parnellite home rule. This is the real state of things, and it is fraught with deadly danger to what has hitherto been known as liberalism, but what has now degenerated to Gladstonism, and as such is discredited and disgraced. The liberals now have two grievances from which there is no escape; the first of these is that they think Lord Randolph Churchill unfairly liberal, whilst the liberal-unionists have become too conservative. On both sides there is a tendency to abandon extreme views for that medium course which appeals to the common sense of the country. Never was there a more favorable opportunity for the advancement of those principles of true constitutionalism which in so many political crises have proved the national sheet-anchor. The people are weary of anxiety and uncertainty. There is a general wish for stable government. The liberals themselves are urging that if their party is to be rallied Mr. Gladstone must give up all home rule projects, whilst others go so far as to say that Mr. Gladstone should leave the political arena altogether, because his persistent claim to liberal leadership is driving large numbers of those who once followed him to support the policy represented by Lord Randolph Churchill. Mr. Gladstone vainly imagines that his personal influence is still sufficiently powerful to reunite the scattered liberal ranks; and he fails to see that the people are beginning to find it safer to trust in consistent principles than in ambitious individuals.

SEWERAGE.

The sewerage bylaw will be submitted to the property-holders of the city in a very short time. It cannot be laid before them too soon. Because of the present defective drainage and consequent danger from an epidemic box-drains are being laid down in different parts of the city. At present there are several cases of typhoid fever in the homes of our people, and we cannot hope from immunity from it as long as the present disgraceful condition of affairs is permitted to continue. No city in Canada of the same size and wealth as Victoria is without some efficient system to properly cleanse and purify it. The scheme now in the hands of the people is, we believe, a good one, and is the result of much care and thought. It is not improbable that it can be improved in some of the minor details so as to meet the wishes of all. Mayor Fell and Councillor Higgins have made a careful examination of the systems prevailing in the principal Eastern cities, and their experience will undoubtedly be found very valuable when the matter comes up for discussion in the council. It is desirable that a perfect system be introduced, and that none of the mistakes which have occurred in other cities be made here. To that end the fullest discussion is necessary, both within and without the council. There will be no serious opposition to the bylaw, no danger of its being defeated, for our citizens have the good of Victoria at heart, and are determined to be progressive and enterprising. No city in these days can claim to be either which has not proper drainage. If matters were to remain as they are we should soon hear such a wail as came to us from the badly drained and consequently fever-stricken city of Petaluma the other day.

THE government of New South Wales recently appropriated £25,000 to provide relief works for the unemployed in colony, yet in a few weeks the streets of Sydney were as full as ever of idle men clamoring for work. Thereupon an ingenious writer in the Sydney Herald suggested a scheme for utilizing this idle muscle and at the same time of adding to the revenue of the colony. His plan was to employ 5,000 men for six years in girdling and thus deadening the scrub pine trees which cover a great area in the colony. He estimates that this land, when cultivated, would yield a revenue of £17,000,000 a year, and his plan is to allow crown tenants to make these improvements and give them tenant-right interest in their work. The work would cost £3,000,000, and of course it would be out of the question for the government to undertake it.

ENGLAND.

LONDON, Nov. 23.—Advices from Durban of Nov. 3rd state that a general and apparently successful revolt is in progress among the natives against the Portuguese authorities in south east Africa. The American missionary, Rev. Mr. Wilcox, arrived in Durban from Portugal settlement on the east coast above Transvaal. He reports as follows: The natives at Inhambane, a Portuguese port town 200 miles above Delagoa Bay, rose up against Portuguese taxation and murdered the collector on Oct. 23rd. A battle was fought between 8,000 Portuguese and friendly natives on one side and 30,000 hostile natives on the other. The Portuguese were defeated and routed and the loss in killed on both sides is estimated to be 9,000 men. Mr. Wilcox says the governor of Mozambique has gone into the country to endeavor to suppress the revolt and save the port of Inhambane from falling into the hands of the insurgents. The town was barricaded when the missionary last heard from it, and women and children had been removed to ships lying in the roadstead. The entire country round about the town had already been abandoned by the Portuguese and arrangements had been made to remove the population of Inhambane out to sea if hostile natives attacked the town in force.

SAN FRANCISCO, Nov. 23.—A special dispatch from London received by the Call states: One of the worst elements of the European situation is the terribly uncertain temper of the Czar, who in his present state of irritation and excitement is liable at any time to throw off all the restraints of prudence and plunge the whole of Europe into war. There is a general impression that the supposed combination between England, Austria, and Italy is an accomplished fact with Germany in the background to divert the attention of France, and that the combination is resolved not to advance an inch but to leave Russia to decide whether she prefers war or peace. It is thought that Bismarck is now ready and anxious to precipitate the crisis.

The postmaster general, replying to the Trades' and Labor League in Dublin, said that a new mail system had been adopted because the acceptance of the tender of the Cunard and White Star companies would have given those lines a monopoly of the American service, precluding the postoffice from sending mails by other lines. The postmaster general will invite offers for mail service after the expiration of three months.

A despatch from Berlin to the Post says, that Count Herbert Bismarck had a long interview to-day with Count Schouveloff, Russian ambassador, at Berlin, in the course of which the latter complained bitterly of the tone adopted by the official German press towards Gen. Kaulbars. It is reported that the count replied warmly to this charge, saying that Gen. Kaulbars' proceedings in Bulgaria were unworthy of the agent of a great power.

A great scare was caused through the West End this afternoon by firing a cannon in St. James' park to celebrate the birth of the Queen's new grandchild. A dense fog was prevailing at the time, and for a while the detonations were believed to be those of some dynamite attack.

FRANCE.

PARIS, Nov. 23.—The chamber of deputies to day voted to favor a reduction of 625,000 francs in the expenditures of the central administration, and a reduction of 150,000 francs in payment to the finance minister. The chamber referred the question of other reductions to the consideration of M. Sadie Carnot, minister of finance. After several divisions it was agreed to discuss the amendments touching the other credit demanded by the government. The attitude of the chamber of deputies toward the government has created a sensation. Reports are current that several members of the cabinet are about to resign and that four under secretaries have already tendered their resignations.

A man and his wife, named Thom have been sentenced to death, and the wife's two brothers, named Lebon, to imprisonment for life, for murdering Mme. Lebon, their mother, whom they burned to death in order to inherit her money.

ITALY.

ROME, Nov. 23 —In a green book, just issued by the government, it is shown that Count De Robitant, minister of foreign affairs, has sent a circular letter to each of the powers assuring them that Italy is desirous of European concert to maintain peace on the basis of the Berlin treaty and independent of the Balkan states. The green book states that in a recent conversation with the British ambassador to Italy, Count De Robitant argued that it was immoral for a great power to morally support a small one, unless prepared to furnish material support when the small power needed it.

Archbishop Smith, of St. Andrew's, is visiting Rome on business relating to the affairs of the Scotch dioceses. He had a long conference to-day with the pope, respecting the best means to bring about a renewal of diplomatic relations between England and the Vat'can. It is reported that a special apostolic delagate will be sent to England with this object in view.

INDIA.

BOMBAY, Nov. 23 —A party of merchants who have arrived here from Ghuzeni report that the Ghilseais have beaten the Ameer of Afghanistan's troops. They also report that the rebellion is still rapidly spreading under the influence of the religious fanatics who lead the insurgents. Many of the Ameer's troops are also joining the rebels, owing to the honorable reception given to the members of the British Afghan boundary commission by the Ameer, which gave rise to the suspicion that he intended to yield to British occupancy.

GERMANY.

BERLIN, Nov. 23 —In spite of the closest watch kept on the barracks at Berlin, Spandan and Potsdam, thousands of copies of socialistic pamphlets have been found among the troops. The matter seized consists mostly of newly-issued appeals to the soldiers to join the workingmen in hastening a social revolution. The source of the pamphlets has been traced to men frequenting the soldiers' beer-houses. A number of men have been arrested.

Herr Schwarz-Eback has returned from St. Petersburg, having suspended negotiations for the proposed Russian loan of 120,000,000 marks. It is reported that since his interview with Prince Bismarck Herr Bleichroder has demanded heavier terms for the proposed loan, which Russia has declined to concede.

BELGIUM.

BRUSSELS, Nov. 23.—The senate and chamber of representatives to-day agreed to consider the bill making it compulsory for a citizen to enter military service at the age of 20 years.

SAN FRANCISCO, Nov. 23.—The freight agents of this city have agreed to restore rates, to and maintain them at, fifty per cent of the old tariff.

A rumor prevails in railroad circles that a party of surveyors have been sent out to survey a line for a railroad along the Columbia river from the Canadian Pacific into Portland. If a practical route is discovered work will be commenced at an early date. It is stated that Mackay is behind this enterprise.

Charles R. Bronson, at whose house in Alameda smuggled opium was found yesterday, was arrested to-day and was placed in the hands of the U.S. deputy marshall. During the afternoon he gave bail in $1,000.

It is believed that Baldwin Gardiner, absconding stock broker, sailed for Tahiti on Saturday on the steamer Ralsea.

A special from Ottawa, Ont., says: A special meeting of the cabinet was held this morning to consider the question of the dissolution of the Dominion parliament. It was decided to postpone the appeal to the country until the result of the Ontario elections is known. Sir John denies that the resolution was discussed, but from reliable sources it is learned that the meeting was convened for that purpose. The fishery troubles with the United States were considered and representations will at once be made to the British government covering the outline of agreement wherein Canada's interest would be protected in the event of the Canadian waters being thrown open to American fishermen. The governor-general was present at the cabinet meeting.

BOSTON, Mass., Nov. 23 —Later facts show the total amount embezzled by Reed is $104,000 of which $34,500 is an over issue of stock. He has confessed to the police and turned over all his property to the directors of the company.

DENVER, Col., Nov. 23 —While T. K. Stevens and son, 20 years of age, were filling a drill hole in the Plutish mine, near Idaho springs, with giant powder last night, the charge exploded killing the son instantly. The father was so badly torn to pieces by the rock that he died this afternoon.

The canvass of the full official vote in San Francisco was completed to-day. The vote for governor is: Bartlett, 17,449; Swift, 15,675; Bartlett's plurality in San Francisco is 1,774; Swift's plurality outside of the city is 1,147; Bartlett's net plurality in the whole state is 627.

In Goldenson's case to day, Judge Murphy overruled the motion to strike the indictment from the files, and disallowed the challenge to the grand jury. The case went over until a week from next Monday.

WASHINGTON, D. C., Nov. 23 —The Marine hospital bureau is officially advised of the prevalence of cholera.

NASHVILLE, Tenn., Nov. 23.—The lawyers of the city have offered a lawyers' stake of $15,000, to be run for at the spring meeting of the Nashville Blood Horse Association. The race is for three-year olds, and distance 1 1-16 mile.

NEW YORK, Nov. 23.—The will of the late ex-President Arthur, which was made in March last, will probably be filed for probate to-morrow. It is believed to direct the disposal of about $250,000 of real and personal property. It is said that bequests, except in one or two instances in which charitable institutions are benefitted, are of a private nature.

Lace goods of much value have been smuggled into New York through various channels for some time. Miss Josephine Schouvieus, a young and lovely Belgian, living in this city was arrested to-day. The young lady says she has relatives in Belgium whom she frequently visits. They send lace by her to sell in this country. The last time she returned by the steamship Switzerland, landing at Philadelphia. It is alleged she brought it here and peddled it through the city. In her apartments was found lace valued at nearly $3,800. The young woman made no secret of the way in which it came into her possession. She seemed to be unaware she had committed a crime in smuggling it into the city.

Mihaly Munkacsy, the Hungarian artist, was banquetted to-night at Delmonicos by a number of his fellow countrymen. Addresses in praise of the artist were made by the Hon. Jos. Pulitzer, Hon. A. S. Hewitt and others. M. Munkacsy replied in Hungarian, expressing his thanks. He complimented the American ladies for their beauty, saying they were the handsomest women in the world. Chestnuts!

In Memorium.

TO THE EDITOR;—I have just received the sad and unexpected tidings of the death of Mrs. Harris, at the house of Mr. Wilson, her son-in-law, Faversham, Kent. I need not express the deep impression it has made upon me, personally. When I parted from her here on the 5th of September, she was apparently in the best of health and in good spirits, and went away joyous in the care of Mr. Wilson, who had come up to meet her. Events have proved that she was then, and had been for some time, under disease of the heart—which the excitement of returning once more to England and the meeting with her relatives aggravated. Some expressions she dropped on our recent journey together have made one think that she was conscious of this, and that the time of her rest was drawing nigh. There has passed away a lady who has had no small part in the early and growing life of your colony, and as the one who most recently was privileged to be constantly beside her, and in the course of a long journey, to exchange thoughts on all subjects, will you permit me to say a little about her in loving remembrance.

When I came to Victoria, twenty-one years ago, I was called to see a poor fellow lying in Mrs. Heal's boarding-house. There was some business he wanted me to attend, but he always added "Mair 'Arris" will tell you about it. This I did not understand. Who is "Mair 'Arris? I said. "Why, bless you, don't ye know Mair 'Arris?" He's the Boss o' Victoria." This was a graphic description of her husband, who was mayor at the time. There was never a lady who better maintained her position as the wife of Mayor. She was foremost in every good work. She did splendid work in starting the hospital in early days, and before even there was a Protestant orphanage in Victoria she was an orphanage in herself. One of the finest things I ever saw was Mr. Harris taking one of his little woman's proteges off the California steamer who some (so called) friends were wheedling away for no good purpose. In these days she was a great friend of Mrs. Kennedy, wife of Governor Kennedy, a lady set also upon what was good. It was a great grief to her, as to others, when the Kennedys went away.

I didn't see so much of her when I was a minister in Victoria, yet I was always impressed by her intellectual sharpness, her charity, energy, and well-sustained pride in her church. Recently when she proposed returning to England with me, I was much pleased, but the pleasure of the sweet and sanctified companionship far exceeded the expectation. She had such a pure joy in all she saw and all she met. She was so thoughtful about others, and so sharp, too, in looking to all sorts of things. It was our privilege to meet many as we came along, distinguished and otherwise, and upon all she made such a good impression. There was a little baby whose mother was ill and she led off others in looking after it. And then when evening came she sat down with her little Testament and had her quiet half hour so resolutely and so unostentatiously. Sundays were bright days to her. When others or when I took service it was such a joy to her. I am glad to think she was happy all through the journey. I will never forget her. Her's is a memory blessed to many. I trust that her good works will follow her in Victoria, and that others may be raised up like her.

LATE DISPATCHES.

CHICAGO, Nov. 22.—At a meeting of representatives of the lines interested in the east bound Pacific Coast passenger business held to-day, the matter of the regulation of the payments of commissions was referred to the lines west of the Missouri River and those east of Chicago, to agree upon satisfactory methods. That point is already provided for as between Chicago and the Missouri River, by a contract limiting the commission on each to $1. This commission business has so badly demoralized the San Francisco market that none of the lines are known to have made any profits on sales for the past two years.

The motion of Horace Fletcher and James Hayes against the Japanese Development Company, Horace W. Avery and Frank L. Powell, for a receiver for the latter's business, better known as the Nee Ban Bazaar on State street, was agreed to by the attorneys for the different parties in court to-day, and Oliver H. Horton was appointed receiver. This action takes the business here and the Ichi Ban of San Francisco. Both have been losing money for some time. The debts are about $5,000 for salaries and $75,000 in promissory notes, accepted drafts, etc. The assets are $7,500 on deposit in the Metropolitan bank and about $70,000 in Chicago and San Francisco.

BUTTE (Mont.), Nov. 22.—The Bluebird Company's 60-stamp mill, erected during the past summer at a cost of $300,000, started into operation to-day. It is the most complete structure of the kind in the world.

Non Dum Subacta.

(Horace, Book II, Ode V.)

Abide thy time. The damsel's taste
In unproductive fields now lies;
Not yet doth she her doll despise,
And oft her roving glance I've traced
To stalls where streaky sweets one buys.

The day nigheth, doubtless, when trim-laced,
She'll heed thy book with flattering haste,
But till that day still further nighs,
Abide thy time.

Ah, spare those soft, unmanly sighs!
For such a child such sorrow waste!
Seeing the fruit so high is placed
Thy utmost effort it defies,
Were not *to call it green* most wise,
And bide thy time?

Concordia Hall.

The popularity of this cosy little house has not diminished since the opening on account of the energy and enterprise of the proprietor, Mr. Siewerd. The show as usual contains many excellent features, the acts being especially good. Monday five new artists appear, all stars in their particular lines. The list of new people is a follows: Lavamie and LeSeur, dramatic and sketch artists; Dick Thornton, the splendid character artist and actor; Miss Jennie Walsh, serio-comic, and Miss Agnes Thornton balladist, besides these the old favorites being retained, making altogether the strongest company that ever played here. *

Personal.

Thomas E. Ladner is at the Driard.

Dr. and Mrs. McLean arrived down on the Rithet yesterday.

Captain Harman returned from Port Townsend yesterday.

Mr. and Mrs. A. T. Galt, of Lethbridge, Alberta, are registered at the Driard.

F. P. McMullen of Portland is at the Driard.

At the Clarence: Miss M. B. Rankin, New Westminster; A. B. Race, New Orleans; D. Smith, Nanaimo.

At the Driard: R. J. Campbell, San Francisco; E. E. Sherwood, Portland; Jno. Claire, Jno. Black, San Francisco.

At the Occidental: Lester K. Alrood, Vancouver; Mrs. A. Roy, James Pattison, Seattle; W. Ingram, Port Townsend.

Mr. H. D. Helmcken (Drake, Jackson & Helmcken) returned from Vancouver last evening.

Mr. John McCully, of Clinton, arrived down last evening, and is staying at the Clarence. He is on his way to California.

A. C. Wells, Chilliwhack; C. N. Hanson, New Westminster; G. Leiser and T. H. Fletcher were passengers by the Rithet.

Supt. Roycraft goes to Nanaimo this morning to hold an inquest on the bodies of the two Chinamen killed in the accident in the V. C. coal mine.

At the Oriental: D. B. Grattan, New Westminster; H. Brackman, Saanich; John A. Parker, Tacoma; J. Hemans, J. Robertson, steamer Barnard Castle.

Mr. F. G. Simpson, of Winnipeg, of the Ogilvie Milling company, and Mr. John Meagher, jr., of Meagher Bros. & Co., Montreal, were among the overland passengers last night.

Mr. John Hyde, president of the Chicago bureau of railway literature, arrived last night from the east. Mr. Hyde has accepted a commission from the Canadian Pacific railway company to write a descriptive handbook of the wonders and beauties of the new British route. The work will be profusely illustrated.

Mr. Higgins, M. P. P., returned from the east last night. He has quite recovered from his recent illness, and speaks in glowing terms of the Canadian Pacific railway, its officials and the people of eastern Canada.

Superintendent Lamb, of the Western Union Telegraph company, was in the city yesterday. Mr. Lamb was in Victoria ten years ago, having been for many years a resident of this city and New Westminster. During his stay here he met many old friends, who were glad to again see his genial countenance. His visit was a brief one, as he left the city this morning.

Mr. D. W. Higgins, M. P. P., who on his way from the east remained a few days in the upper country, came into the city today on the Pacific express. He is looking well after his trip, and was delighted with the cordial reception which was everywhere accorded himself and his companion, Mayor Fell. The principal cities of Ontario and Quebec were visited by both gentlemen and and a large amount of valuable information obtained respecting municipal institutions and government, which through their positions on the council board they will use to Victoria's benefit. That city is certainly fortunate in having citizens who work unremittingly and with very little or no personal gain in her interests. Mr. Higgins will go down to Victoria to-morrow by way of the Inlet.—*Columbian.*

JOURNALISTIC.—W. W. Thayer, a well-known eastern newspaper man, assumes the editorial management of the Tacoma News. Mr. Thayer was formerly commercial editor of the St. Louis Globe-Democrat, and afterwards served on many other eastern papers, being latterly connected with the Indianapolis Sentinel. He is a will informed gentleman, of pleasing address, and is possessed of brilliant conversational powers. He was one of Wendell Phillips' most intimate and esteemed friends, and was connected in business with him previous to the war of the rebellion.

RETURN OF CAPT. IRVING.

An Elegant Iron Steamer to be Built at S. F.

Extensive Improvements in the Steamer Service of the C. P. N. Co.

A representative of *The Colonist* called on Capt. John Irving, manager of the C. P. N. Co., who returned from the east on Sunday.

Rep.—Well, Captain, what's the news?

Capt.—Well, on behalf of our company, I have arranged for a superior steamer service between Victoria and Vancouver. We have entered into a contract with the Union Iron works of San Francisco, for the construction of a fast iron screw steamer of about 1000 tons, and I go to San Francisco by next steamer to formally sign the contract. The plans have been specially made to meet the service. She will be provided with the most modern machinery, having triple-expansion engines, carry 150 pounds pressure of steam. It is calculated that she will make an average speed of seventeen knots an hour, which would cover the distance between Vancouver and Victoria in from four to five hours. While making the speed of the Olympian, she will not cost to run her the amount that it takes to provide the Olympian with coal. It will be ready for service about the 1st of June.

Rep.—How will she be fitted?

Capt.—Well, on about the same plan as the Olympian is furnished, and you can't ask for much better. The sleeping accommodation will be greater. We think that the tourist and other travel over the C. P. R. next season will warrant the placing on of such a steamer, and as our agreement continues with that company, we are going to provide the fastest and best boats that can be built, and think that we will satisfactorily meet all demands.

Rep.—How much will the new boat cost?

Capt.—About $200,000—a big sum—but we have no doubt the travel will warrant it.

Rep.—Are you going to build other steamers?

Capt.—We are corresponding in reference to the construction of a steamer in England, which will outshine anything ever run on the coast, and show a clean pair of heels to all craft running. But arrangements have not yet been completed.

Rep.—Do you intend to branch out any?

Capt.—Yes, we will run excursions along the northern coast in connection with the C. P. R., and also in connection with our Skeena trade. There is scenery on the B. C. coast that will rival any in Alaska, and it is the intention to work it up.

Rep.—What do you think of the C. P. R.?

Capt.—The finest road on the continent The equipment is remarkably comfortable and convenient, the officers courteous and travel generally is luxurious. The snow sheds in the mountains are completed, and it is the general opinion of those who ought to know that the C. P. R. will prove to be a safer winter road, and surer of remaining open than any other of the trans-continental lines. You have only to travel over it to be assured of this.

Rep.—What about the Yosemite?

Capt.—The shaft is on the way out, and it is thought she will be again running by the 1st of January.

The interview here ended.

Another Railway.

It is understood that another railway for British Columbia is under consideration. The road will be the continuation of the narrow gauge road running from Dunmore, a point on the Canadian Pacific near Medicine Hat, to Lethbridge, a distance of 110 miles, where are situated the Galt coal mines. It is proposed to extend this line from Lethbridge through Crow's Nest Pass, and by a convenient route through Kootenay district to the boundary line. Although the project is yet in its infancy it is probable that the projectors will seek a charter from the provincial legislature to extend the line by the most feasible route.

The coal mines of Lethbridge have become a considerable fuel producer for the supply of the northwest, including Winnipeg, and since their being opened a few years ago a town of 1500 inhabitants has sprung up, all either directly or indirectly employed by the railway and coal mines. These are run by the Saskatchewan Coal Mining and Milling Company, in which Sir Alexander Galt is largely interested. His son, Mr. A. T. Galt, now on a pleasure trip to this province, is the general manager of the railway. By the extension of the latter through to the boundary it is thought that a much larger market for coal would be secured.

Another Smash Up.

Railways, steamboats and telegraph lines all have had their experiences this year, but nothing has equalled the smash up in prices at the B. C. Stationery and Printing Co.'s store, next door to the postoffice. It is wonderful how much you can get for your money there. *

[BY TELEGRAPH.]

SAN FRANCISCO, Nov. 23.—Arrived—Steamer Queen of the Pacific, Victoria; steamer Columbia, Portland.

FROM ALBERNI.—Mr. W. Halpenny returned Monday night from a trip up the coast, having located five settlers—Messrs. Lee brothers. Prossor and Lewis, all lately from Ireland—on French creek, near the sea coast. Locations are made on both sides of J. H. Bott & Son. The party are well pleased with their land and will return in a few days with a good outfit. Mr. Halpenny observed quantities of good land from Englishman's river to Cameron lake, on the road from Nanaimo to Alberni. McPherson's portion of the new road from Nanaimo to Alberni is a good piece of work. The Alberni end of this road was just finished, and McPherson was on the point of rebuilding the bridge burned over Englishman's river. When this is done a carriage may be driven from Victoria to Alberni.

THE SECOND lot of French Visites, Short Dolmans, Brocade Velvet Paltots, a full assortment of Ladies Jerseys of the latest styles, and a large assortment of Wool Goods suitable for presents, just received at SPENCER'S ARCADE, having come from London in thirty-four days. Ladies waiting for the above will be glad to hear of their arrival. *

LECTURE.—The second lecture in the Y. M. C. A. course will be delivered to-night by the Rev. Arthur Beanlands, in the Rooms, Spencer's Arcade. The subject will be: "Wit and Humor," and those who attend are sure of a rare intellectual treat. The rev. gentleman, it is said, will handle the subject, a most taking one, in a masterly manner.

The Governor's Address.

The following is the address of his honor Mr. W. F. Archibald, lieutenant-governor, to the Mock parliament of the Y. M. C. A., on Friday evening last. Mr. Archibald fitted into his position in a natural way, and looked every inch capable of filling the important task alloted to him. During the delivery of the address he was greeted with frequent applause:

THE ADDRESS.

Mr Speaker and Gentlemen of the Legislative Assembly:

It affords me great pleasure in meeting you at the opening of the first session of our legislature, and I have much gratification in stating that the past year has been one of general prosperity.

The farmers have been blessed with an abundant harvest and have found a ready market at high prices, consequently the commereial interests of the country have been very much improved.

On account of the completion of the Canadian Pacific railway the exports of fish, lumber and fruits have greatly increased and by reason of the very liberal scale of freight rates lately issued by the C. P. R. I have every reason to expect that an impulse will be given to agriculture, the fisheries and the mines such as they never had before.

I am much pleased to know that the Island railway, notwithstanding its sharp curves, stretches from Victoria to Nanaimo, and that trains have been running regularly for some months to the great convenience of travelers, and that thereby the facilities for trade and the carrying of the mails are greatly increased, and as a consequence may I not expect that in a few years what is now a dense forest and a sea of mountains will be picturesque villages, thriving towns and even cities rivalling any that now exist in this fair land of ours; and that coal may be bought in Victoria for five dollars per ton.

It also affords me much pleasure to know that the Imperial authorities have united with the federal authorities in doing all that I could wish for the protection of our capital city, by establishing fortifications and garrisons in the immediate vicinity. I have assurances also that the protection of the future great city of the mainland will not be neglected.

Whilst the country is making such rapid onward strides in her material interests I have much pleasure in stating that in her morals too she intends to keep pace, and to preserve and keep pure her people I shall ask you to urge upon the federal government, the necessity of passing a law prohibiting the manufacture and sale of all intoxicating liquors; also a law prohibiting the desecration of the Sabbath day.

It is gratifying to contemplate the completion of the C. P. R., yet I feel assured that you will join with me in regretting that so many Chinese have been brought into the country, to the great disadvantage of our own people, and that further representations must be made on the same subject to the federal parliament.

It is a source of great pleasure to me, and one of which I am justly proud that our educational system continues to produce satisfactory results throughout the country. Yet, in order to keep pace with the rapid development of brain power you will be asked to set apart a tract of land to be used for the purpose of establishing a university for the higher education of our youth.

You will be asked to consider the question of indemnity to persons in factories and other great works. A bill will also be brought before your notice, dealing with the question of what number of hours should be considered as a working day, with a view to the protection of the bone and sinew of our country.

I desire to call your attention to the fact, that the stream or tidal wave of immigration has set in, and that we may be prepared for an immense increase of the population in the near future. It may be desirable not to give whole tracts of land by way of bonus to the many projected railways. Yet in view of the many advantages to be obtained by the opening of easy and quick communication, such tracts be given in alternate sections, and with such other privileges as you may devise so that the country may reap an immediate benefit therefrom.

In accordance with the wishes of the great mass of the people, a bill will be submitted to you giving those who owe debts of small amounts an opportunity of paying them on short notice, and at a small charge.

In order that I may have the full assurance of the comfort and safety of all persons, I shall ask yon to pass such laws as may be requisite to secure proper fire escapes on buildings and other securities.

A bill will be brought before your notice to consolidate the public debt, and the public accounts and estimates for the ensuing year will be presented for your approval.

I have communicated with the Dominion Government with reference to the advisability of having a free postal delivery in our chief cities, and in view of the ease and delight with which our loving subjects would receive their mail at their own door, I shall ask you to make such further and other representations to them that the same may be procured before the snow-drifts shall have blocked the way.

Having the honor, and the good name of our beloved country at heart, I shall ask you to urge upon the federal government the necessity of passing a law for the inspection of canned fish, in order that designing people may not impose upon our fellow-countrymen of the east, those fish as a specimen of our far-famed British Columbia salmon, which upon opening the cans are found to be only smelt from another shore.

I have also to direct your attention to the possibility of great loss of life if the steamboat regulation laws are not strictly enforced, and that our population may not be diminished thereby. You will be asked to urge upon the federal parliament the necessity of the strict enforcement of the laws regulating steamboats and railroads.

In leaving you to your deliberations, I feel assured that your labors will be devoted to promoting the best interests of the province.

FOR THE PENITENTIARY.—Six Indian prisoners, convicted at Metlakahtla for various offences, will be taken to New Westminster gaol this morning by Officers L. F. Lewis and Brooks.

THE OKANAGAN RAILWAY.

What Mr. Patterson Thinks About the Line.

Mr. Thos. Patterson, late of Bell, Larkin & Patterson, and now interested in the construction of the Shuswap and Okanagan railway, has recently returned from a first trip to the district through which the railway will pass. To a *Colonist* representative, he said that the survey under Mr. Perry had already proceeded about fifteen miles and that the line, though having more curves than he had first supposed, would be of easy grade and readily constructed, not costing more than $20,000 per mile. The extent of arable land in the district was a surprise to him and he regarded it as the most promising field for agriculture in the province. There were hundreds of thousands of acres suitable for wheat culture, which are known to produce exceedingly large crops, the farmers now in the district securing all the way from 30 to 50 bushels to the acre, the average crop being about 33 bushels to the acre. During the last year the bench lands have been tested as to their capacity for wheat growing and they show that a finer quality of grain can be grown on them than in the valleys. No irrigation is necessary in either valley or benches. This exceptionally favorable condition of things is owing to the fact that the district lies between the Shuswap series of lakes and Okanagan lakes, and thus the land is given more seepage and moisture and the snow from the hills surrounding the valley also adds to its moisture. Even in the dryest season by digging a few inches the soil is found to be moist. Last season was an extremely dry one, and yet the average wheat crop raised per acre was 1000 pounds.

All this goes to prove, Mr. Patterson thinks, that when the district secures railway connection with the C. P. R. it will be enabled to grow sufficient grain to supply the coast markets with flour, even in competition with the Northwest and Oregon mills. Already through Okanagan are a number of small flour mills for local markets, and there has now been completed a large four storey mill by the Columbia Milling Co. This is situated at Lambly's Landing, and is capable of producing from 100 to 150 barrels daily by roller process. One of the firm, Mr. Laws, is a practical miller of large experience and having tested various qualities of wheat in the States and Canada, is of opinion that Okanagan wheat is the best he has yet seen for roller process flour. They have now enough wheat on hand to run the season. Gray and Dumbleton of this city, have under construction a light draught steamer for this firm to run at all seasons of the year when the river is open, the present steamers not having sufficient depth of water in the dry season.

It is also stated, Mr. Patterson said, that the Beddoe timber limit at the head waters of the Spellamcheen river have been secured by a capitalist who has a contract to supply white pine lumber to an English firm, and the quality of pine in this region is just what he wants. The trees are from five to six feet through. If he proceeds with the work, he will establish large sawmills at Sicksamoose Narrows and ship the lumber to the coast, and from thence by vessel to England.

Mr. Patterson considers there is no better field for a profitable return to the province than that offered by the Okanagan valley, and he feels quite sanguine that the railway through from lake to lake will be built. It would not only affect the fifty miles of country through which it traverses, but would tap the lateral valleys, and by steamer communication on Okanagan lake would provide connection with the large district adjacent to that sheet of water.

Fall Assizes.

(Before Mr. Justice Crease.)

SECOND DAY.

Court assembled at 10:30 a. m. and the case of Christopher Webb, charged with intent to murder, was taken up. Deputy Attorney-General Irving conducted the prosecution and Mr. Theo. Davie appeared for the defence.

A complete account of Webb's crime was given in this paper last summer at the time it occurred. The assault was made in a cottage on Chatham street, near Quadra. Webb was having an altercation with his wife when two boarders named Turner and Stewart entered. Turner went to the side of the room to hang up his hat when Webb drew a revolver and fired two shots at Turner, one of which entered his hat, making a slight scalp wound,—had it been one inch lower down, fracture of the skull would have resulted, and a murder committed. Webb stated that the cause of the shooting was, that on the preceding night he had found his wife in a compromising position with Turner. He had ordered Turner away and on seeing him was prompted to the act by jealousy and in the belief that his wife had been intimate with his intended victim. The case occupied the court until 1:30 p. m. when the jury retired, and after an hour's deliberation brought in a verdict of guilty on the third count—unlawful wounding.

The afternoon was occupied with the case of Tai Ho, charged with cruelly wounding and ill-treating a Chinese girl named Gook Lang. The deputy attorney-general conducted the prosecution and Mr. C. Wilson appeared for the defence, Mr. Vrooman as interpreter.

THE ROSENFELD.—Capt. Harman gave evidence on Monday at Port Townsend in regard to the condition of the ship John Rosenfeld, in the suit between the original owner of the vessel and the Tacoma Mill Co. for $150,000. The captain made a submarine examination of the Rosenfeld on behalf of the defendants, and stated that the ship's back was not broken, and that the only damage other than the leak and strain was due to chafing on the rock. It was his opinion that the vessel might easily have been got off if proper measures had been taken.

Fun in Camp.

The Eckert-Leighton Musical Comedy company opened their season last evening to a fair house. "Fun in Camp" is one of those pretty pieces, written to bring out the best powers of the various members of the company. There is a light humor running through it that causes many a hearty laugh, and an attendance at the performance has a better effect than a consultation with a doctor. Miss Louise Leighton, the soprano, has a sweet, clear voice, of good compass, and in many instances where it was called into requisition she was warmly received. Besides her pleasing voice she has a charming manner on the stage and will be a favorite here always. Mr. T. W. Eckert is a comedian of good quality and is the possessor of an excellent tenor voice. In his songs he was well received, and it is a pity he did not sing more. Mr. H. W. Frillman, the basso, has a magnificent voice, and in his solo "There's no such girl as mine," received a recall. Miss M. Gaston, the contralto, has a pleasing voice, but there was not much chance to prove it The xylophone specialty was one of the best features of the third act and received a recall. The "Mocking Bird" was given on these wooden instruments with remarkable effect. After "Fun in Camp" the "Veiled Songstress," a comic opera of a quiet character, was given. In it Miss Leighton made a good hit, and was frequently applauded. In the last act of the programme there is considerable merriment. In this act they scored the best reception of the evening in the quartette "Rocked in the Cradle of the Deep." It was simply a lovely rendition of that song, the voices blending in sweet unison and in the solo being perfect in expression. A hearty burst of applause was given, and the quartette was repeated. The performance is thoroughly enjoyable, and is well worth seeing.

To-night there will be a change of programme. The first and second acts will be same as last evening. In the third act, however, will be given the entire Miserere scene, from Il Trovatore, the duel scene from La Traviata, the grand aria for the basso from Mozart's "Magic Flute," and the principal tenor aria from Norma, and by general request the quartette—"Rocked in the Cradle of the Deep." This will be a treat that the music loving people of Victoria will be sure to give a hearty response to, and as the voices of all are worthy of the selections to be given, we can promise that they will not be disappointed.

Railway Connection.

The following is a translation from the Portland Staats Zeitung, and is a comment on a recent article published in this paper:

Victoria flatters herself with the idea that the N. P. R. R., when completed, will make her the actual terminus, leaving Portland in the shade. For that purpose, they say, the N. P. will not only have steamers of their own plying between Tacoma and Victoria, but the road itself is to be continued to Fidalgo Island, Villard's original plan, so as to be within a short distance of her by water. That a continuation beyond Fidalgo Island to connect with New Westminster will be established is unquestionably true; but meanwhile, the O. R. & N. Co., which has thus far exercised supreme control on the Sound, has not been idle. They look to a point much nearer to Victoria, to wit, Port Angeles—up to where the road is to go from Olympia by way of Port Townsend. For that purpose the necessary explorations were made last summer.

THE MISSING BRICE.—The friends of Austin Brice in New Westminster are exceedingly anxious to ascertain his whereabouts. His sudden disappearance with a considerable sum of money in his possession was a great surprise to all who knew him as he has heretofore borne and excellent reputation. As is usual in such cases there is rumor that there is a woman in the case with whom Brice became infatuated during her residence in the same boarding house occupied by him for the past few weeks. She passed through this city last week on her way to Seattle where she was to join Brice. During her stay in Victoria she had part of Brice's baggage in her possession. The *Colonist* has all the details of the whole affair, but withholds them in the hope that Brice will see his folly, when he realizes the character of his companion, and return to his friends a "sadder but wiser man."

The magistrate fined the innocent looking celestial $275 or three months imprisonment with hard labor, but the Chief thinks he will change his mind before he gets a cord of wood sawn.

A Chinese railway agent was here recently engaging locomotive engineers to go to China. He offered $10 a day, but even with that inducement he failed to find any who were willing to cast their lot in the celestial empire.

It is understood that Mr. David Oppenheimer will not present himself as a candidate for the Mayoralty at the ensuing contest, but that he will support Mayor MacLean's re-election.

DEATH OF A PIONEER.—The sudden death of William Sterling at his residence on Meares street, is regretted by all who knew him in life. The deceased complained of a slight illness on Saturday last though nothing serious was apprehended. He lived alone in a cottage and was a bachelor. Mr. Homfray, his friend, not seeing him since Monday morning, yesterday at 10 a. m. visited his residence and found him in bed with life extinct. Dr. Milne was summoned and gave the opinion that death was caused by heart disease. He was last seen by Mr. John Kurtz, to whom he complained that his heart was troubling him. Mr. Kurtz advised him to go home and lie down which he said he would. Mr. Sterling was an old pioneer of British Columbia having arrived in this province in 1858, and during his twenty-eight years residence here won the esteem and friendship of this community. In early days he was interested in the Cariboo gold fields, and latterly was prominently identified with the Skidegate oil company on Queen Charlotte's islands. He also organized with other prominent business men the Delta canning company which he was interested in at the time of his death. Mr. Sterling was a native of Orange county, New York, being 58 years of age, and it is believed has no relatives in this province. The funeral will take place to-morrow under the direction of the B. C. Pioneer Society of which he was a member.

TIMBER LIMITS.—Mr. Reginald Nuttall is piloting a number of Chicago saw millers up the North Thompson on a "still hunt" for timber. The millers are rich and are prepared to gobble up all the desirable timber lands they may discover. Query—Has not the time arrived to preserve our forest wealth from falling into the hands of persons who desire to lock up the valuable properties for an indefinate number of years?

POLICE NOTES.—A Chinaman was yesterday sentenced to the jail for three months, for stealing tools from the King Tye Co.'s building....The cases against W. Bowman for refusing to pay cab licenses, and against the Gas Co. for opening Government street without permission were adjourned to to-morrow.

"THE cry is, still they come." This time from Mr. Henry Mansell, boot and shoe maker, of Government street, in the form of two more pretty calendars for 1887. If the influence of the beautiful on the lives of the growing generatsons is as great as artists say, it is certain that these calendars will play an important part.

Late Canadian News.

ONTARIO.

Two stone-masons engaged at the Mattewan bridge, four miles east of Finmark, started on a hunting expedition, when they came unexpectedly upon a bear. Their guns being loaded only with partridge shot, they thought it best to beat a hasty retreat, but to their surprise upon looking around discovered the bear following them. Seeing escape impossible, they determined to defeat or be defeated. One of them hastily loaded his shot gun with a bullet and fired it in the animal's face, which seemed only to increase his fury. He was now close upon him; it seemed almost impossible to escape, when his companion came up and shot the bear through the heart with the only remaining bullet they had, thereby saving both their lives.

NOVA SCOTIA

The fishing schooner Flying Scud, of Gloucester, Mass., sailed for home, but owing to bad weather was forced to return, and anchored near the mouth of the Northwest arm. It was learned during the day that she was violating the customs law by selling fishing gear, and orders were given to the cruiser Francis E. Conrad to arrest the vessel. A number of the Conrad's crew were placed aboard the schooner and she was brought to Halifax and was anchored alongside the cruiser.

NEW BRUNSWICK

Eliphalet Roberts, a young man 21 years of age, met with a sudden and frightful death, while attending to the engine that was hoisting pitch pine into the brigantine Sullivan alongside of the government pier St. John. Young Roberts was the driver of the engine, and, when seen last was standing with his hand on the lever. It is thought that his coat must have caught in the machinery in some way and drawn him in to his death. When the engine stopped the laborers looked around and saw nothing but Roberts' legs, his body being apparently in the machinery. Steam was shut off and fire raked from under the boiler, but some minutes elapsed before the body could be extricated from its position. Life was extinct when that was accomplished. There was a deep cut on the lower jaw of the deceased, which was caused by one of the cog wheels. His neck was broken and his back in three places.

Rev. Dr. Wilkes, honorary pastor of Zion Church, Montreal, is dead.

George Sweet, Supt., of the Canadian Pacific palace and dining cars, charged with harboring two deserting Allen steamship cooks, was discharged, the prosecution being dropped and the cooks reinstated.

Judge DesNoyers has dismissed the case against Cure Piche, Terrebonne, accused by a tavern-keeper of exacting money by threats.

Adam Darling's creditors have decided to appoint a curator. His liabilities are $70,000, and assets $25,000. The claim of Meeker & Co., amounts to $20,000.

A cablegram was received at Montreal from Roy, city attorney, announcing that the appeal of the heir Lachevrottere in the million dollar suit against the city had been dismissed by the privy council.

A sneak thief hid himself in the church of the Jesu, Bleury street, and when all was quiet robbed all the alms and other boxes of the faithful deposited money for religious purposes. The thief made good his escape through a window, and as yet has not been caught. In all he got about $20.

A Modern Miracle.

OTTAWA, Nov. 14.—Benjamin Alonzo Simmons, son of George Simmons, a farmer of Hull township, was cured by a mesmerist yesterday afternoon of a lameness from which he has been suffering since the spring of 1884. He was unable to walk or even stand without crutches. After a matinee at the Grand Opera house, he went to the professor, and asked if he could do anything for him. The professor rubbed at the disabled limb for a couple of minutes, and then bade the patient get up and walk across the room without crutches. To his surprise he was able to so, though with some difficulty. The professor then went to work again for a brief period, after which he assured the astonished man that he would now find the lameness gone and told him he might go home. Simmons got up and proceeded on his way without any difficulty. He has been going about ever since, though with with a little stiffness, as the muscles of the leg have become sunken through long disuse. Simmons was for two months in the spring of 1885 in the General hospital in Montreal, being treated for his lameness, but left without being any better; in fact, it was only the day after he left the hospital that he began to use crutches. He is about twenty-four years old, is a finely built man, and over six feet high. Being unable to work on the farm, he has lately been a student in the Business college here.

ALLEN'S LUNG BALSAM

THE remedy for curing Coughs, Colds, Asthma, Croup, Diseases of the Throat, Bronchitis, Pains and Oppression of the Chest or Lungs, Difficult Breathing, and all the Diseases of the Pulmonary Organs. *No better remedy for Whooping Cough can be found.*

CAUTION.—Don't experiment with new and untried medicines, but always keep on hand this safe and sure remedy.—**Allen's Lung Balsam.**

MOTHERS, have you delicate, weakly children, who are always TAKING COLD, and subject to CROUP? Remember, there never was a case of CROUP which did not originate in a COLD.

ALLEN'S LUNG BALSAM IS YOUR REMEDY.

Physicians who have failed to cure their patients should try this medicine before they give the case up, as we know many valuable lives have been saved by being persuaded to give it a trial.

DO NOT DESPAIR because all other remedies have failed, but try this remedy, and you will not be deceived. *It will cure when all others fail.*

Allen's Lung Balsam is now put up in Three Sizes,

Price 25c., 50c., and $1 per Bottle.

The 25c. bottles are put up for the accommodation of all who desire simply a Cough or Croup remedy. Those desiring a remedy for Consumption or any Lung Disease should secure the Large $1 Bottles,

JAMES D. ROBINSON, C. M. C.

City Hall, 17th Nov., 1886. no18

In the Supreme Court of British Columbia.

Between THOMAS R. ELLA, Plaintiff; and ROBERT O. ROBINSON, Defendant.

VICTORIA, BY THE GRACE OF GOD, OF THE United Kingdom of Great Britain and Ireland, Queen, Defender of the Faith.

To Robert O. Robinson, of Dennis, Massachusetts, United States of America:

We command you, that on or before the 1st day of January, 1887, that you cause an appearance to be entered for you in an action at the suit of Thomas R. Ella.

And take notice that in default of your so doing the Plaintiff may proceed therein and judgment may be given in your absence.

WITNESS, Sir Matthew Baillie Begbie, Knight, Chief Justice, the 9th day of November, 1886.

The Defendant may appear hereto by entering an appearance either personally or by Solicitor at the office of the Registrar of the Court at Victoria.

N. B.—This Writ is to be served within twelve calendar months from the date thereof, or if renewed, within six calendar months from the date of such last renewal, including the day of such date and not afterwards.

Amended by rule of Mr. Justice Crease, dated the 9th day of November, 1886. HARVEY COMBS, Deputy Registrar.

The Plaintiff's claim is for an account of the dealings of the Plaintiff and Defendant with respect to part (14 acres) of Lot No. 4, of sub-division No. 2, of Section LXXXV, Map N. 166, Victoria District, for a decree that their affairs may be wound up, and a sale of the said hereditaments had with all necessary and consequential directions.

This Writ was issued by CHARLES WILSON, Broughton street, Victoria, Solicitor for said Plaintiff, who resides at Victoria. no2d2tw1t

THE STARR

KIDNEY PAD.

To Relieve the Suffering.

"The successful firm known as the Starr Kidney Pad Company, of Toronto, are about to introduce their old efficacious and reliable proprietary medicines into this province. They manufacture Dr. Starr's Kidney Pads for lame, weak and sore backs, which have been sold long and extensively throughout Manitoba, Ontario, the lower provinces and in England. The cures effected by these pads are said to be marvelous, in relieving and curing those—said to be incurable—diseases known as diabetes and Bright's disease of the kidneys. A leading eastern member of parliament says these pads are certainly the best remedy ever tried in his locality for any kidney or urinary disease. These kidney pads ought to have a large sale in this province, as there are many miners, fishermen and railroad navvies afflicted with kidney disorders, to say nothing of its prevalence among other classes of our people. The same company also manufacture numerous other medicines for the cure of other of the many ills which flesh is heir to. A general agent will be appointed for the province. We wish the company success."—*Victoria Daily Times, Sept. 9th, 1886.*
